► Powerful Performance & Incredible Efficiency

Built from guiding principle, HiTi P720L was designed to maximize your photofinishing profits by increasing uptime, shortening printing time, and providing multi-applications. HiTi P720L is recommended to use with HiTi Picvite Suite, which is easy and with less investment to create your highly scalable and profitable photofinishing business.

Shortening Printing Time

Roll-fed mechanism design with HiTi outstanding printing technology gets 4"x6" (10x15cm) prints within 7.9 seconds*

* Under the conditions of HiTi laboratory testing.

Increasing Uptime

By 1000-print capacity design, HiTi P720L is much less often in changing media, and gives more selling time. Also, high capacity roll reduces staff interruption.

Fitting in Multi-Applications

With full front-access design, HiTi P720L can be integrated in unattended or semi-attended Kiosk system at retail. With HiTi Picvite Suite, HiTi P720L, as a micro mass photofinishing system, is capable of competing against silver halide.

► Superior Printing Performance

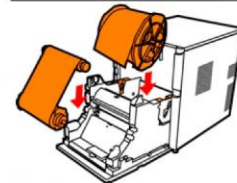

Powered by HiTi Color

With HiTi Color Technology inside, HiTi P720L is the preferred brand of photo printers by many photo and imaging professionals as well as enthusiasts around the world.

Hassle-free Operation

By straightforward instruction, getting HiTi P720L ready is not laborious any more.

Color Optimization

HiTi Color Technology offers two color preferences for different printout request. HiTi Passport Photo Color produces superior skin tones in portrait; HiTi Classic Color provides brilliant life-like true color reproduction for your digital images.

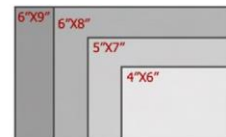

Prime Quality in Matte Finish

Apart from glossy photos, HiTi P720L is capable of matte finish. No media change required!

Diverse Print Formats

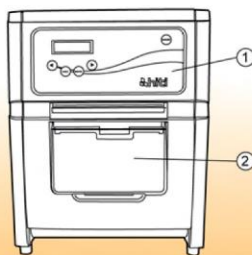

HiTi P720L allows most diversity in print sizes, including 4"x6", 4"x6"-2UP, 5"x7", 5"x7"-2UP, 6"x8", 6"x9" and 6"x9"-2UP*.

*2UP function should be operated from printer driver.
